Board on Board Dog Ear, Flat Top, Convex, Concave

Style Numbers: 310, 213, 216

Western Red Cedar, like all Cedar makes for superb wood fencing. Stain it to match the house, or let it weather to a silver gray, the look and feel of Cedar cannot be matched by any manufactured product.

Cedar is Naturally Beautiful and Naturally Maintenance free. The natural preservatives in Cedar protect the wood against insects and decay, making it one of the most worry-free fences around. It's also easy to cut, and easy to handle, which makes for easy installation. .
